**International Conference
of IG Metall**

**December 5th to 7th 2012
in Berlin**

Berlin Congress Center (BCC)

Dear Colleagues

IG Metall invites you to an international conference in Berlin from December 5th to 7th 2012. With this conference we intend to debate how ecological restructuring of the economy can be linked with expansion of life opportunities and democratization of society.

How can a change of the political course look like that brings together good working conditions, ecological reconstruction and revitalization of democracy? How can we combine solidarity, self-determination and ecological responsibility, representing alternatives to financial market driven capitalism?

Implementing this change of course will require internationally coordinated activities. For this reason we are seeking the dialogue and cooperation with representatives from academia, trade unions and politics from all around the world.

You are kindly invited to attend this conference.

Berthold Huber, President of IG Metall
