Concept Note

The present global crisis, in its various manifestations, is a wholesale crisis threatening civilizations and the planet's entire ecosystem. Piecemeal fixes here and there cannot offer the rescue. Business as usual is a sure recipe for persistent social crises and turmoil and regional conflicts, which threaten human security and aggravate ecological disasters on different scales. We have reached a historical point of bifurcation. It is in the hope of envisioning an inhabitable future that we call for a commitment to build an inclusive, equitable, culturally diverse and ecologically-friendly civilization.

The Forum will take up several key themes, such as food sovereignty, ecological sustainability, agrarian reform and rural regeneration, communal cooperation and sharing of the common. Forum participants would be requested to provide relevant research and case studies. Together we may come to a picture of the global situation. It is hoped that by making sense of the local praxis and articulating this within the current global conjuncture and new historicity, we can envision possibilities and alternatives to overcome the existing inequitable global system.

The awareness of the global common may help us form a collective will. For example, we share the atmosphere and have to bear the consequences of global climate cataclysm. There is no escape. It is a daunting challenge for the creation of the common among people who seem to have nothing much in common. While our existence is unique and singular, we must strive to find a way to overcome parochialism and xenophobia, to find the compassion and the courage to love those who seem to have nothing in common with us. Such is the touchstone of what means to be human nowadays. For what binds us in the last analysis is the human-induced vulnerability of the ecological system as well as the vulnerability of human existence.

In an age when the global exploitative system has extended into the deepest parts of the Amazon and the remotest corners of the world, when not a single inch of the earth can escape the impact of destructive globalization, it is necessary that we go beyond the local. The sustainability of the planet's bio-diversity as well as our civilizations very much depends on our capability and willingness to share, and on whether we have the intelligence, the compassion, the courage to form a common will to act before it is too late.

会议简介

当前的全球危机，严重影响着人类文明和自然生态；面对这一全面危机，单一经济调整无济于事，更会加剧社会动荡，甚至引发地区冲突；不仅威胁人类安全，而且恶化已经造成的生态灾难。我们正站在关键的历史交叉路口上。因此，人类应该提倡生态文明及其内涵的多样性文化，促进包容、公正的可持续发展。

本会议的议题包括粮食主权、生态可持续、土地改革和新乡村建设、社区合作与公有共享。我们邀请与会人士提供相关的调研或案例分析，从而构建一幅全球图景。为此，本会议希望成为交流经验、促进实践的平台。

意识到全球性的公共品可以使我们形成集体行动的主观意志。例如面对全球气候剧变无人可独善其身。在一群表面看来毫无共通之处的人们之间，如何创造出可以公有共享的事物是一种复杂挑战，需要努力克服狭隘排外心态，需要胸怀慈悲关爱他人——这是在当前危局中人之为人的试金石——说到底，把我们连结在一起的，除了岌岌可危的生态体系，还有人类存在的脆弱性本身。

在具有剥削性、无远弗届的全球化倾轧之下，世界上难再有世外桃源。因此，为了应对资本全球化的强劲趋势，我们需要超越地方层面来进行合作。维护地球的生物多样性乃至人类文明的可持续性的关键，在于我们能否分享；在于面对迫在眉睫的全球灾难，我们是否有智慧、慈悲和勇气形成集体行动的意志。

Institute of Rural Reconstruction of China (IRRC)
Southwest University

From 1920s to 1940s, a several well-known scholars and rural reconstruction activists in the modern history of China, Lu Zuofu, Liang Shuming, Y.C. James Yen, Tao Xingzhi and Huang Yanpei, have managed to give an impetus to the rural reconstruction experiments in Beibei District, Chongqing. Their efforts have resulted in the significant inspirations on the philosophy and practices of rural reformations.

There have been numerous institutions of education and scientific research founded in Beibei. Famed by Mao Zedong's comment as "one of the four entrepreneurs whom people will never forget", Mr. Lu Zuofu has been a founder of the Institute of Science and Technology of Western China, in which many of its participants have later become the academicians of Chinese Academy of Sciences. In 1940, Y.C. James Yen, one of the "ten great men of the 20th century changed the world", has established the Institute of Rural Reconstruction of China (renamed as Chuandong Educational College in mid-1950 and later merged into Southwest Teachers College), serving as the only institute in China providing higher education specially for rural people at that time. Meanwhile, there were many other institutes, such as Mianren College (later merged into Southwest Teachers College) set up by Mr. Liang Shuming, the Yucai School in Hechuan set up by Mr. Tao Xingzhi, and Fudan University which was temporarily moved to Beibei during the Second Sino-Japanese War (1937-1945).

Some of the historical data of modern education and cultural sites have been preserved in Southwest University (SWU), which is located in Beibei.

In March 2012, on the basis of several conventions between Lu Zuofu Research Centre and the Rural Reconstruction Centre of Renmin University of China, the Institute of Rural Reconstruction of China (IRRC) of SWU has been officially established by SWU. The aim of the establishment of IRRC is to implement the national strategic adjustment on "Ecological Civilization" as well as the enhancement of cultural soft power stated by the ruling party. The further purpose is to succeed the abundant historical resources and cultural legacy with the reinforcement of scientific studies and personnel trainings on rural reconstruction. With the head of SWU serving as the Dean, IRRC has distinguished Professor Wen Tiejun, the scholar and pioneer of contemporary rural reconstruction as well as mass educational practices, as its Executive Dean.

SWU has always enjoyed the geographical predominance of being surrounded by the historical sites of rural reconstruction during the Republican period (1911-1948), the wealth of the collated historical data, and the gather of extensive resources as well as talents from all specialties including agricultural discipline. IRRC will serve as a platform of developing specialized research on contemporary rural reconstruction with the full utilization of SWU's advantages, in which the Institute will achieve its goal through the promotions of rural area development, rural reconstruction and rural education. At the same time, acting in concert with Beibei as the National Coordination of Rural-Urban Experimental District, IRRC will explore the working methods on rural-urban integration and the practice of rural reconstruction.

The tasks of IRRC include:

1. To collate the diversified practical experience of rural reconstruction in both local and overseas contexts, developing relevant theoretical research on Ecological Civilization and to advance world-wide and national exchange;
2. To launch the cultivation of local and overseas talents in the research areas of rural reconstruction and "Three Dimensional Rural Issues", compiling and publishing related teaching materials and monographs;
3. To combine historical and contemporary research studies, in order to strengthen the practices and operating projects in the rural sustainable development experimental area;
4. To implement SWU's mission to meet the local needs of development, discovering the natural, historical and human resources, and thus to push forward the cultural development of rural reconstruction.

西南大学中国乡村建设学院

20 世纪 20-40 年代，中国近代史上著名的学术大师和乡村建设大家卢作孚、梁漱溟、晏阳初、陶行知、黄炎培等汇聚重庆北碚，推动了卓有成效的以乡村建设为名的改良试验，形成了对后世具有深远启发意义的文化遗产和经验资料。先后有多家教育科研机构诞生在北碚，其中：被毛泽东誉为中国人民不能忘记的四个企业家之一的卢作孚先生主持创办的“中国西部科学研究院”中的多位参与者后来成为中科院院士；被西方誉为“20 世纪改变世界的十大伟人”之一的晏阳初先生 1940 年创办“中国乡村建设学院（1951 年中改为“川东教育学院”后并入西南师范学院）”，成为当时全国唯一的一所专门培养乡村人才的高等学府；同期还有梁漱溟先生创办的“勉仁书院（并入西南师范学院）”，陶行知先生在合川创办的育才学校，以及抗战内迁北碚的复旦大学等等。

这些近代教育文化的史料和遗址资源部分地留存或坐落于北碚之西南大学。

2012 年 3 月，为贯彻执政党提出的“生态文明”、提升文化软实力的国家战略调整思想，承接和发扬百年乡村建设丰富的历史资源与文化影响，强化相关的科学研究、人才培养，开发其国际国内影响，西南大学在卢作孚研究中心与中国人民大学乡村建设中心多次合作的基础上发文成立了西南大学中国乡村建设学院；由校领导担任院长，特聘当代乡村建设及平民教育实践的发起者与学术带头人温铁军教授为执行院长。

中国乡建学院尝试通过农村区域发展、乡村建设与乡村教育等平台建设，充分发挥西南大学地处民国乡村建设遗址群的地理优势、已有乡村建设历史资料整理研究的资源优势、拥有包括教育及农科在内的各学科门类齐全的学科优势和人才优势，深入开展当代乡村建设研究。同时，结合重庆市作为全国统筹城乡实验区的特点，探索具有本地特色的城乡结合、乡村建设实践的工作方法。

乡村建设学院的工作主要包括：

- 1、整理海内外乡村建设的多样化实践经验，开展生态文明相关的理论

研究及推进国际国内交流合作；

- 2、开展乡村建设与三农研究领域的海内外人才培养，以及相关教材与专着的整理、编撰出版；
- 3、结合历史与当代研究，深化乡村可持续发展实验区的实践工作；
- 4、贯彻高校服务于地方发展需求的职能，发掘重庆北碚地区自然、历史与人文资源，推动乡村建设文化发展。
